DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I claim 1 in the reply filed on 5/4/2007 is acknowledged. After searching claim 1 the examiner has determined that the present claims are free of prior art. Thus the restriction mailed 4/17/07 is withdrawn.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 is indefinite because applicants fail to clearly set forth what compounds are being made this process. If the process results in the compounds of claim 1 then an amendment to the claim should be made that clearly indicates the final product. An amendment making claim 3 dependent on claim 1 or an amendment placing the final product made into the claim should be sufficient to overcome this rejection.

Claim 4 is indefinite since it fails to recite the specific process steps required to make the compounds of claim 1. Please note that it appears that combining claims 3-4 into one claim will overcome the rejection of claims 3-4. Should applicant decide to combine the claims, cancellation of one the claims is recommended.

Allowable Subject Matter

4. Claim 1 and 7-9 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter:

The compounds of claim 1 are not taught or suggested in the prior art of record. The process of using and making these novel compounds is also not suggested in the prior art.
6. Claims 3 and 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
